All Proceeds Benefit Wish Charter School

WISH Charter School is a unique public school, independent of the larger LA school district, that promotes inclusion of and respect for all children. Your contribution will serve to sustain WISH's whole child approach to education. The disparity between the budget provided to WISH by the state, which continues to be cut and deferred, and the cost of truly serving all children, must be raised by the WISH community. Support for WISH Charter is support for a model of free, public education that truly serves all children.
