

WISH Charter School is a unique public school, independent of the larger LA school district, that promotes inclusion of and respect all children. WISH is modeled after the award-winning CHIME Charter Elementary School in Woodland Hills, which received the distinction of "Charter School of the Year" by the US Dept. of Education in 2005. Important academic, social and ethical skills and attitudes are developed when students with various strengths, needs, and backgrounds learn together. The proof that this model benefits all children can be witnessed every day at WISH. Each class builds a strong community together with co-teaching and collaborative techniques used to address every learner individually. This academically rigorous model builds empathy and strong character in learners as they become leaders of tomorrow.

Your contribution will serve to sustain WISH's whole child approach to education. The disparity between the budget provided to WISH by the state, which continues to be cut and deferred, and the cost of truly serving all children, must be raised by the WISH community. Support for WISH Charter is support for a model of free, public education that truly serves all children.

WISH Charter School
